INTELLIGENT VISITOR MANAGEMENT SYSTEM FOR MODERN, HIGH TRUST AND SECURE CAMPUSES.

Campus safety has never been more critical. Universities must protect students, faculty, staff, and visitors, and recent studies confirm that security now stands among the top priorities for higher education institutions.

LogBook360 helps institutions meet rising expectations for campus safety and operational efficiency through configurable check-in flows, real-time watchlist screening, and automated alerts. This allows administrators, faculty, and security teams to stay focused on academic outcomes instead of managing manual processes. Powered by AI and built on modern cloud architecture by GlobalVox, LogBook360 delivers fast performance, smart integrations, and secure scalability across multi campus environments; supporting high volumes of students, parents, and visitors with ease.

- Digitize and simplify all campus visitor workflows
- Centralize scheduling for events, tours, and large gatherings
- Enable contactless check-in through QR codes and personal devices
- Improve emergency response with real-time alerts and evacuation tracking
- Strengthen compliance with digital policies, audit ready reports, and role-based access

SECURITY & SAFETY

LogBook360 puts campus control at your fingertips. Institutions can define access policies, verify identity and purpose, and maintain evidence-ready logs without slowing down reception desks or student services. It operates as far more than a check-in system, it becomes a proactive layer of campus defense, helping universities prevent incidents, safeguard academic spaces, and respond decisively during unexpected events.

Glimpse of key features offered by LogBook360

STREAMLINED VISITOR PROCESS

APPOINTMENTS

Students, parents, researchers, and campus guests can book appointments directly with the appropriate faculty or department. Staff manage schedules through native integrations with Google Workspace, Microsoft Outlook, and iOS/Android calendars. Automated confirmations and reminders reduce no shows and keep campus appointments running smoothly.

SELF-REGISTRATION

Reduce the load on campus reception by allowing students, parents, and guests to pre register before arriving. LogBook360 captures essential details, validates identity, and issues a pre visit QR code. Hosts and visitors receive real time updates, eliminating manual follow ups and paper logbooks.

CONTACTLESS MANAGEMENT OF WALK-IN VISITORS

With the LogBook360 Kiosk (web based or device native), campus visitors can register their arrival, provide required details, and notify their host without staff involvement.

Prefer a fully touchless process?

Guests simply scan a location specific QR code and complete check-in on their own device, keeping queues short and hygiene high.

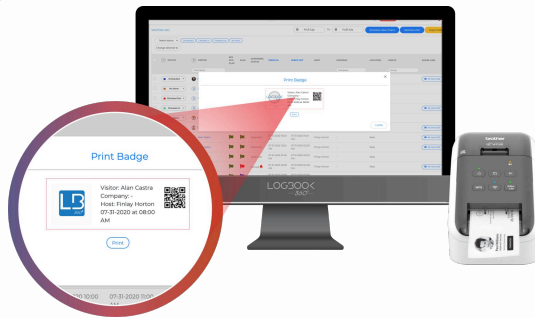

CHECK-IN AND CHECK-OUT WITH A QR CODE

Speed up campus flow with QR based check-in and check-out. Unique visit QR codes are auto-generated and sent via email or SMS, allowing precise and secure recording of arrival and departure times; no shared pens, no clipboards, no manual logs, and no ambiguity.

BADGE PRINTING

Issue custom badges automatically at check-in. Include dates, visit times, photos, host names, and color coding for different visitor types such as parents, interview candidates, vendors, researchers, and guests. Badges enhance visibility, compliance, and confidence across campus.

CONTEXTUAL HELP / SELF HELP GUIDE

Accelerate adoption with an intuitive self help guide. Contextual tips appear where users need them on kiosks, administrative screens, and reports. Campuses can transition from manual processes to a modern, user focused system with minimal training required.

Prospective Student and Family Visits

Guest Lecturers, Researchers, and Academic Collaborators

Contractors, Maintenance Crews, and Vendors

Student Event Visitors

Alumni Visits and Donor Relations

On Campus Interviews and Career Fair Guests

Medical Centre or Student Health Centre Visitors

Residential Hall Guest Check In

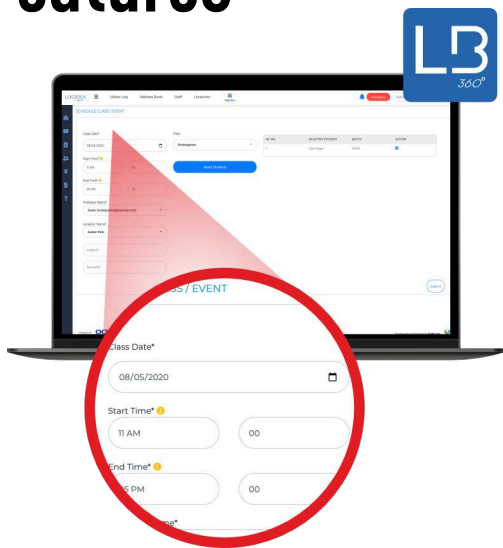

Campus Safety and Emergency Evacuation

Library and Restricted Resource Centre Access

VIP Campus Events

Features

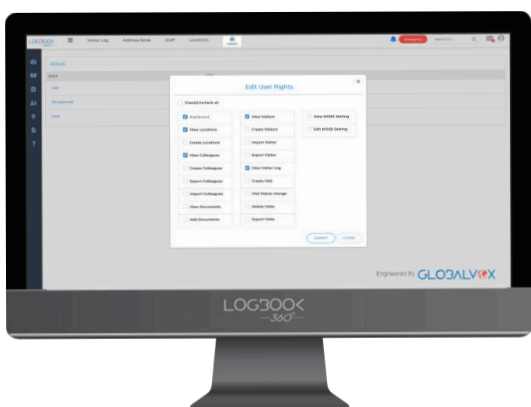

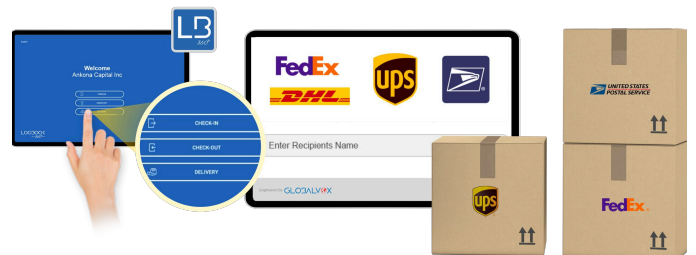

SCHEDULE AN EVENT

Create campus events with just a few clicks. Add participants, share location details, host information, and access instructions. LogBook360 sends a branded invite with a QR code for smooth arrival and departure tracking

- Admission tours
- Student/Parent orientation
- Research collaborator visits
- Faculty or department appointments
- Guest lecturer and interview schedules

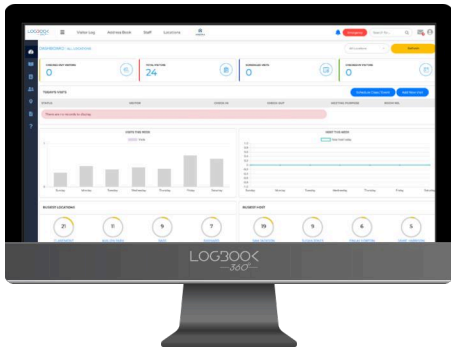

DELIVERY NOTIFICATIONS

Simplify campus mailroom operations with automated delivery workflows. The system alerts students, faculty, or staff when packages arrive and records chain of custody details. Track pickups, proof of delivery, and service timelines; all from one centralized dashboard

ROLE AND PERMISSION BASED ACCESS

Assign precise access levels to reception teams, campus security, student services, faculty administrators, and leadership. Role based controls ensure each user sees only what they need, supporting clear separation of duties and reducing campus security risks.

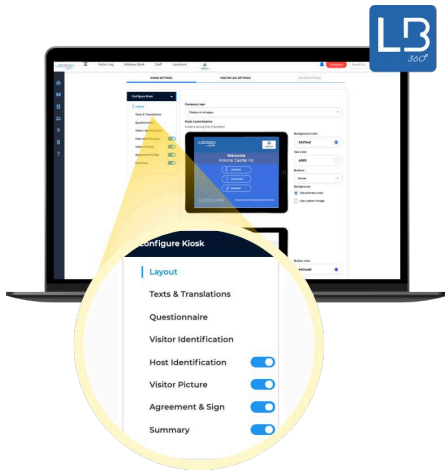

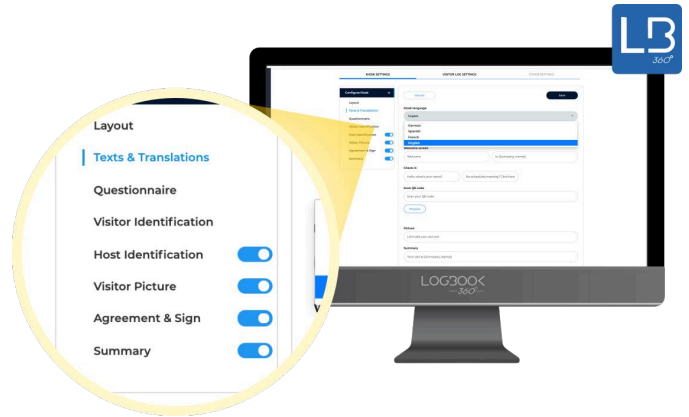

DASHBOARD AND REPORTING CONFIGURABILITY

A graphical dashboard displays real time campus check-ins and check-outs, active appointments, high traffic departments, and campus level trends. Standard and custom reports provide audit ready data for compliance, occupancy planning, and emergency preparedness. Export to PDF or XLS for sharing and future records.

MULTILINGUAL SUPPORT

Welcome international students, parents, researchers, and guests with language selection on kiosk and mobile flows. Reduce friction and errors by allowing visitors to register in their preferred language.

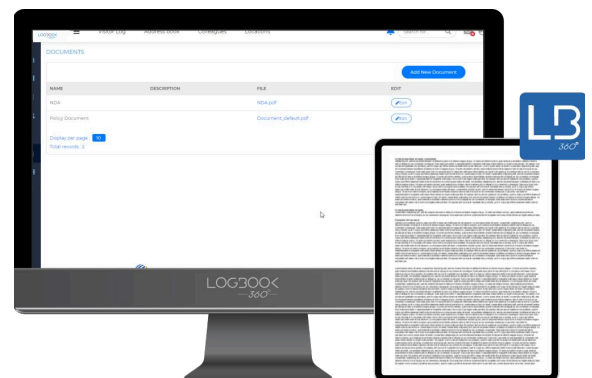

CONFIGURABILITY

Customize the LogBook360 Kiosk with your campus theme and colors. Configure visitor types, badge styles, required fields, early or late check-in rules, and on-screen instructions, down to each campus. Every location reflects its unique academic and operational needs.

SETUP YOUR CHECK IN POLICY

Ensure every campus visitor reviews and accepts the policies that protect your community. Upload documents such as campus rules, safety guidelines, lab protocols, and emergency instructions, and collect digital signatures during check-in. Policies and signatures are stored securely for audits and compliance, eliminating paper processes and reducing administrative burden.

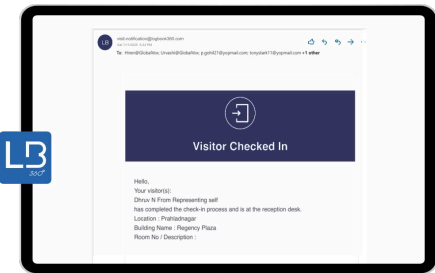

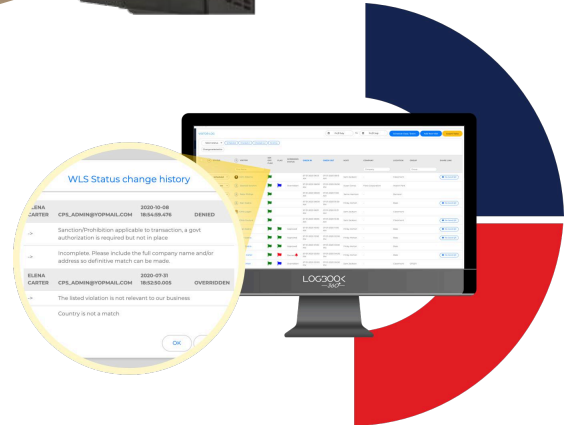

Integrations

WATCHLIST SCREENING

Know Your Visitor

Perform real-time screening of visitor names and associated organizations against approved watchlist, custom blacklist databases and registered sex offender lists. LogBook360 flags the visit when a match is detected. It alerts campus administrators or security, and enforces review first workflows before access is granted.

EMAIL AND SMS NOTIFICATIONS

Send automated, customizable notifications for key visit events on campus: pre visit reminders, arrival alerts, host notifications, overstay warnings, and departure confirmations. Keep students, faculty, staff, and visitors informed without manual follow up.

CAMPUS MANAGEMENT /ERP INTEGRATION

Time & Attendance

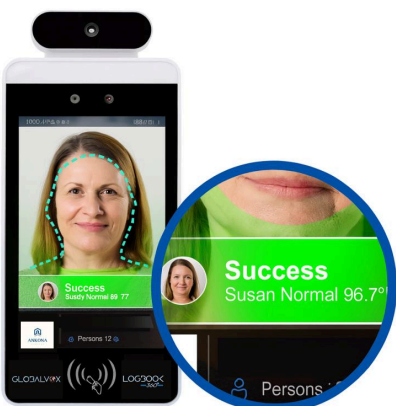

Ensure data accuracy with real time integration to campus ERP and SIS systems. LogBook360 syncs staff records, rosters, and policies while streamlining visitor and workforce workflows. Its AI powered Time & Attendance module connects with ADP, Oracle PeopleSoft, Oracle HCM Cloud, Workday, and other systems to deliver unified personnel management and compliance across campus location

ACCESS CONTROL WITH FACIAL RECOGNITION AND HEALTH PROTOCOL MANAGEMENT

Perform Temperature Checks/ Enforce Masks

Integrate with campus access control systems to grant or deny entry at doors, gates, labs, and residence halls. Configure supported devices for mask compliance and temperature checks where required by campus policy. Keep academic spaces secure while streamlining authorized access for students, faculty, and visitors.

ALBi ASSISTANT FOR FOR CAMPUS VISITS

Voice Guided, Multi Lingual Support and Intelligent Navigation

Navigating a large campus can be challenging for students, parents, prospective applicants, researchers, and vendors. LogBook360's Agentic AI Assistant streamlines the entire visit lifecycle through natural conversational interaction available on kiosks, mobile devices, or a visitor's own phone. This reduces staff workload and enhances the campus experience.

Voice Driven Multi Lingual Visit Management

Visitors can speak in their preferred language to schedule appointments, confirm details, complete check in, reschedule, or check out. Faculty and staff can review or manage visits through simple voice prompts.

Smart Host Assistance

Faculty and departmental staff receive reminders, arrival alerts, delay notifications, and daily summaries that help them stay organized and prepared.

Instant Answers to Campus Questions

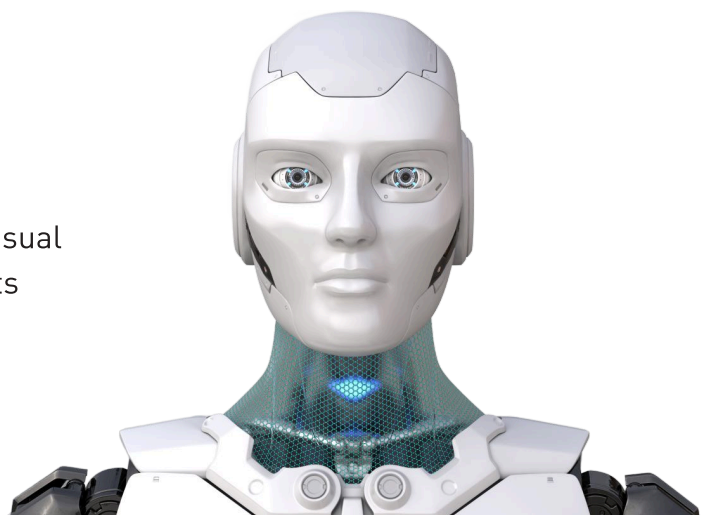

The assistant responds to common inquiries such as building hours, directions, safety information, event details, and host information. This reduces front desk volume and ensures consistent communication.

Intelligent Facility Navigation

After a visit is confirmed, the AI Assistant provides real-time turn-by-turn guidance from parking areas to academic buildings, labs, dorms, offices, event venues, and athletic facilities. Navigation is delivered through live location mapping on the visitor's phone.

Inclusive and Accessible Experience

Voice and multi language support assist visitors with visual impairments, those unfamiliar with campus, and guests who prefer hands free or translated guidance.

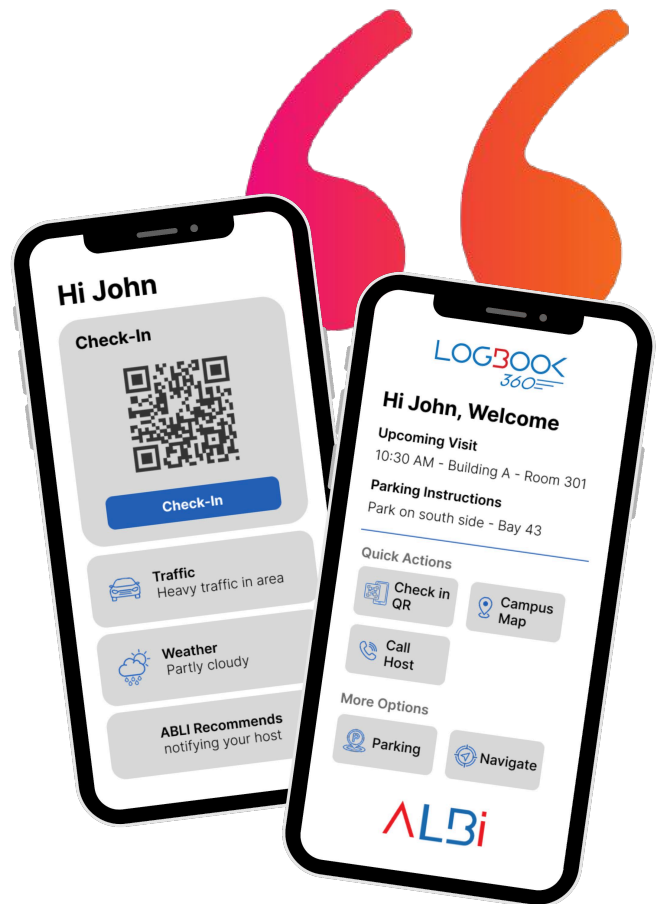

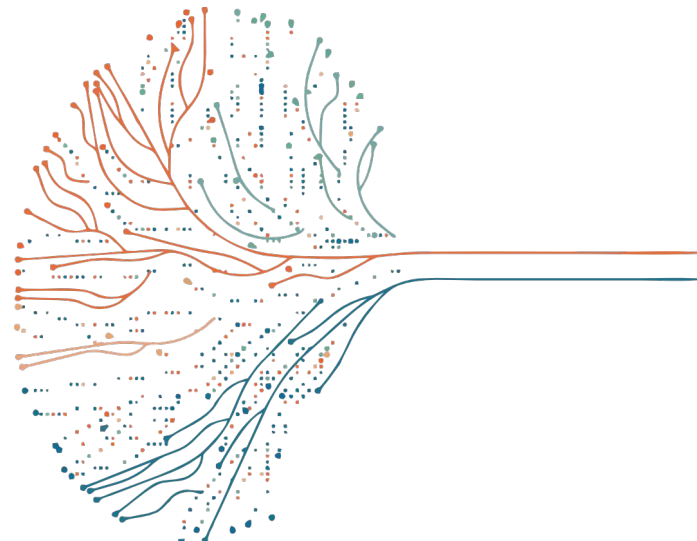

ALBi is LogBook360's intelligent voice and multilingual AI assistant that guides hosts and visitors through the complete visit lifecycle. From scheduling and check in to navigation and real time support, ALBi modernizes and simplifies every interaction. The LogBook360 Mobile App brings hosts and visitors together in one intelligent platform. Role based access ensures every user sees exactly what they need while ALBi the built in agentic assistant, guides the entire visit journey end to end.

KEY CAPABILITIES

- One app for hosts and visitors with automatic privilege control
- ALBi voice and chat assistance for scheduling, check-in, navigation, and updates
- Real time traffic and weather insights with recommendations to reschedule or notify counterparts
- Smart alerts for arrival status, delays, parking, and building entry instructions
- Digital QR badge, touchless check-in, and multilingual support
- Meeting preparation assistance including agenda reminders and required documentation
- Suggestions for transportation modes and best routes to the meeting location
- Host tools for quick approvals, visitor tracking, and emergency notifications

ALBi ensures that every step is proactive, predictable, and seamless. Whether users are planning a visit, traveling to campus or office, or engaging in a meeting, the LogBook360 app keeps them informed, prepared, and connected at all times.

LogBook360 by GlobalVox combines advanced AI technology, strong compliance controls, and a user-centered design to deliver a SIMPLE, secure, scalable, and intuitive campus visitor management experience. Whether you're standardizing processes across campus or enhancing front desk operations with touchless flows, LogBook360 helps universities operate safely, efficiently, and confidently.
