

THE WORLD'S MOST SIMPLE YET ADVANCED VISITOR MANAGEMENT SYSTEM

Powered by AI and Engineered by
GLOBALVOX

Why LogBook360?

- Organizations must balance safety, compliance, and efficiency while delivering a seamless visitor experience. LogBook360 modernizes visitor management with intelligent automation, configurable workflows, and real time visibility so teams focus on outcomes, not manual tasks.
- LogBook360 digitizes the visitor lifecycle from scheduling and pre registration to on site check in and secure check out, delivering a fast, contactless experience with centralized control and audit ready records.
- LogBook360 by GlobalVox provides a secure, scalable, and intuitive visitor management platform for modern organizations.

Advantages

Operational Efficiency

Automates scheduling, check-in, and check out, reducing front desk workload using QR, self-registration, notifications, and dashboards.

Security and Compliance

Enhances security with real-time screening, digital policies, role-based access, and audit-ready logs.

Modern Visitor Experience

Delivers fast, contactless journeys via mobile, kiosk, and QR, branded badges, multi language, ADA support.

Built for Scale

Runs on cloud for high traffic, multi location deployments, with ERP, HRMS, and access control integrations.

Emergency Readiness

Enables rapid response through real time alerts, live occupancy, evacuation, and reunification tracking
